JUST

Remember me in the rising sun and the glorious sunsets that I enjoyed so much: the scotch, music, operas, laughter and tears: my slapdash nature and the love of the ridiculous.

Gardening, hands in the dirt, smell of lavender, apple trees, fresh veggies, parsley, coriander, kale, the things of life that money cannot buy. Beautiful birds, the surf, the boats, swimming, fishing, amazing family and precious friends, pets that have enriched our lives— everything that was so important to me.

Your "duck" has fled to who knows where and who cares— but I am sure I shall enjoy it and if there is a "thereafter" I shall be at the head of the queue waiting to embrace you!
